A half double crochet beanie is nothing new, there are thousands of patterns on the internet for these kinds of beanies, some are free others are paid versions. I am not inventing something new here nor do I try.
This pattern is free to use in any way, shape or form you choose but please do not use my photos without permission and I would appreciate it if you would refer to my website if you chose to use this pattern.
Thank you and have a great crochet day.

Use green pipe cleaner to stabilize the leaves and use it to hold it up from the top of the hat.

Put the leaves together as you prefer and sew them together with the ends.

The end of the pipe cleaner can be put into the MR on top of the hat and twisted up through the stitches and wrapped around the bottom of the leaves, twist the black left over yarn around the pipe cleaner to hide it and close off the end.
